

# The International Fibromyalgia Symposium

August 19-22, 2004

The Phoenician Resort, Scottsdale, AZ

**You CAN Live a Better Life – Even With Fibromyalgia.  
Start now with a weekend of pampering, education, and support!**

## Focus on Recovery

The International Fibromyalgia Symposium will be the first time FMS patients, their physicians, therapists, dentists, and caregivers will all exchange ideas about treating Fibromyalgia Syndrome in a practical, results-oriented, non-invasive strategy focused on RECOVERY.

## Have Personal Access to the Experts

The foremost FMS researchers and treatment experts from throughout the world will lecture, hold panel discussions, and lead hands-on workshops. Sessions will cover the systemic causes and chemistry of the disease, and strategies for treatment. Three continuous tracks will discuss all the symptoms you've been feeling, and foster discussions with the experts and other patients on relief strategies. **Most importantly, you'll have personal access to the experts throughout the three days to discuss your personal issues and experiences.**

## Be Among Friends

Hundreds of them, to be exact! All of them feel your pain, forget your name, and fade in the middle of the day. What a group we will be! But you will never feel more supported, accepted and loved than you will feel for these three days.

## Pamper Yourself

**The Luxury:** The Phoenician is one of the top vacation resorts in the world. Each room is luxurious and spacious right down to the plush robes and beds. The service is impeccable and every special need can be accommodated (including allergies to cleaning supplies, mobility, diet, etc.)

**The Food:** The Phoenician's award winning chefs have designed delectable FMS-friendly menus especially for us. Two lunches, four breaks, and one banquet are included in your registration fees.

**The Pampering:** Take advantage of the world-class spa and meditation room at the Center for Well Being. The therapists at the spa are FMS aware and will be using salicylate-free products for your treatments.

**The Fun:** And there is always the prospect of soaking in one of the nine (9) pools or numerous Jacuzzis – one that seats up to 50 people! Can you image all those FMSers giggling in the bubbles?

**You owe it to yourself.  
You DESERVE a better life!**

**Come be a part of our FMS family.**
